Paid After 56 Years.

Seguin, Texas, Feb. 26.—A man by the name of Kimball, who bought two yearlings from a neighbor by the name of Henry Moffeld, in this country, 56 years ago, has just paid for the two animals, together with interest from the time of the transaction. Kimball is now a resident of Falls county, but Mr. Moffeld has been dead a number of years, payment being made to his son, who lives near Hondo.

Moffeld was a man of wealth and was known to be extremely liberal. Kimball purchased the two animals on credit while the men were neighbors in this county before the civil war. Later the latter became dissatisfied and wished to move, but was still unable to settle for the yearlings and tried to get Mr. Moffeld to take them back, but he declined, saying that Kimball could pay for them in the future. Communication was discontinued between the two after a time and Moffeld finally died and his family moved away. However, just before Christmas Kimball located the son of his former benefactor through an item in a daily newspaper telling of the destruction of his home by fire, and as soon as he read it he wrote Mr. Moffeld and later sent him a check for the two yearlings, together with interest on the amount from 1856.—San Antonio Light.

Miss Hurt Entertains.

"Ben" made last Saturday night one never to be forgotten by the F. F. F. girls and Alice Crabtree as guest, saving nothing of Albertina and Goldie. They said enough for themselves.

Forty-two was enjoyed very much until refreshments were served, then it was a shadow in the background.

Everything went merry until about 11, when to Lizzie's consternation she discovered it was time to retire. Mabel rendered her valuable assistance, while Lizzie uttered magic words, declaring next time she would leave her jitney at home.

Satisfaction in Overland Service

Mrs. R. J. Zerr Wins First Prize.

Mrs. R. J. Zerr of Hondo won first prize in the Overland contest, conducted by the agent, Horace King, which closed Tuesday, February 29th. Quite a number entered the contest and it was no easy task that confronted the judges, as a large number of the five reasons "why you should buy an Overland" were so good that it was hard to make the award.

The following answer was selected by the judges as the best received:

FIVE REASONS WHY ONE SHOULD BUY AN OVERLAND.

1st. It has wonderful power, and plenty of room.

2nd. On account of its strength and durability.

3rd. On account of the beauty contained in its stream-line body.

4th. It has all modern conveniences and is easy riding.

5th. In no other car of even greater price can you get the advantages contained in an Overland.

E. R. Leinweber, C. W. Gilliam and Dr. W. H. Smith were the judges making the award.

Mrs. Zerr received a due bill of \$100 to be used on the purchase of an Overland car.

Missionary Society.

The Woman's Missionary Society held its mission study at the parsonage Monday, Feb. 21st.

Several talks on "Conditions in Egypt" were made.

Mrs. Alexander gave a brief sketch of Mohammed's life.

Mrs. Horger read a very interesting paper—"The Coptic Church in Egypt." The Society will meet again March 6, 1916. REPORTER.

Upper Hondo Handouts.

Dr. and Mrs. J. W. Nixon of Goetzles have been up for a week or more looking after ranch interests.

It seems as if the gripe has got everybody in this country.

Born to Mr. and Mrs. Emil Pressler on the 24th a bouncing boy. Mother and child are doing well, but how about papa? He has expanded so much that he had to get larger clothes.

Another Ford arrived at the home of Gus Britsch. Gus says they can't beat him.

Aug. Spott was shopping in Hondo Friday.

What is the matter in Hondo? We have heard that some Hondos went 30 miles to get a drink of water on the 22nd. Must be very dry down that way.

Otto, Louis, and Harry Spott have been in the cedar brakes the last few days getting out posts for fencing.

Ferd Reinhardt is putting in a farm up here. Our country is building up. Dr. and Mrs. Bradley and Horace Bradley and wife made a flying trip up here one day last week. Come again.

A good roads meeting has been called for Wednesday night at the Rothe school house.

School is progressing fine. Washington's birthday was observed by the teacher and pupils rendering a nice program. Quite a number of visitors were present.

Mr. and Mrs. Alex. Marquis, Mr. and Mrs. Arnold Rothe and M. L. Santhoff and wife visited Mr. and Mrs. Miller last Sunday.

Upper Hondo, Feb. 27, 1916.

New Laurel for the Ford.

Ford cars have proved an endless theme for the jabs of paragraphers, but it nevertheless goes steadily on making a reputation for itself, and it has recently been developing characteristics that it was not suspected of having even by its originator himself. We mean its sporting proclivities. In this new field of endeavor last week its achievements in this new role will provoke the envy of some of the old hunters, for but few of them can boast of bagging an eighteen pound wild gobbler this season, and that is what a Ford accomplished last week. Mr. O. E. Leary was out in the pasture in his Ford and crossed a big gobbler who battered him for a race, and the challenge was promptly accepted. Those who have visited the section say it is no trouble to follow the race course by the broken down and uprooted mesquites, and prickly pear patches that are as bare of thorns as any ever produced by Burbank, the thornless cactus king. The race was a long and exciting one, over hill and plain, through chaparral, through pear thickets, etc., but the gobbler was outclassed; he was run down by the Ford, and next day furnished the piece de resistance on the dinner table. If the Ford people wish to use this new exploit of their car they are welcome to do as no rights are reserved.

Surprise Party.

A pleasant surprise party took place at the home of Mr. and Mrs. Emanuel Poerner in honor of Miss Emma Poerner's birthday.

Those present were: Mr. and Mrs. J. W. Bendele and children, Mr. and Mrs. Louis Rihn and children, Mr. and Mrs. Geo. Kempf and children, Mr. and Mrs. Louis Keller and children, Mr. and Mrs. Louis Bendele and children, Messrs. Joe Schmidt, Adolph Eichhorn, Andrew Ahr, Paul and Wm. Ehinger, Misses Lizzie and Mary Weiss, Ida Briende, Ella Eichhorn, Silva Bendele, Pauline Rihn, Kate Kempf, Clara Ehinger, Pauline Bendele, Rosa and Silva Schmidt, Messrs. Joe Weiss, Henry Biry, Martin Schneider, Elbert Griffin, Martin Schmidt, Fred Kempf, Willie Oppelt, Eddie Bendele, Joe Bendele, Geo. Schmidt, Frank and Gus Rihn, Theo. and Ed Keller, Eddie and Alf. Ehinger.

Cake and coffee was served at 12 o'clock. Dancing was kept up until 3:30 o'clock when "Home Sweet Home" was played, and all departed after a jolly good time, to their respective homes.

Blocker-Johnston.

William P. Blocker and Miss Ozeda Johnston were married at the home of the bride's sister in Comanche, Texas, Tuesday morning, February 29th, 1916, at 8:30 o'clock in the morning.

The groom is a Hondo young man, practically his whole life being spent here, and is highly esteemed by our people. He has been United States consul at Piedras Negras, Mexico for the past three years, and his success in the consular service of this country has been gratifying to the friends of his boyhood days.

The bride is a charming young lady of Corpus Christi, and is highly esteemed by a host of friends in that city for her many womanly qualities.

Mr. and Mrs. Blocker arrived in Hondo on Thursday's noon train on a short visit to the groom's parents, Judge and Mrs. V. H. Blocker, and were the recipients of many congratulations and good wishes on the part of friends here. Mr. and Mrs. Blocker continued their journey yesterday to Piedras Negras, Mr. Blocker's official residence.

To the happy young couple, The Anvil Herald in connection with a host of other friends, extends felicitations and sincere wishes for a long and happy married life.

Fritz Rothe Dead.

Fritz Rothe, an old and highly respected citizen of D'Hanis, died in a hospital in San Antonio at 4:00 o'clock Thursday morning, aged 77 years, 2 months and 10 days.

Decedent had been in failing health for sometime, his indisposition principally resulting from advancing years. He was taken to San Antonio a week ago Wednesday for surgical attention, and had recently undergone a minor operation to relieve him of suffering, but the main operation for which he was carried to the hospital was never undertaken.

Mr. Rothe was one of the largest and most prosperous ranchmen in the Medina county, and was the largest individual land holder in the county.

The body was placed to rest in the family burying ground on the ranch at 2:30 o'clock yesterday afternoon, a large number of Hondo people attending as a last tribute of respect to the deceased. Both the banks of Hondo, with which Mr. Rothe was directly or indirectly connected, remained closed throughout yesterday as a mark of respect to his memory.

The family of the deceased have the sympathy of a large circle of friends in their bereavement.

FLOUR! FLOUR!

One adult person will average consuming 1000 pounds of flour in ten years. In fact, that is said to be the average consumption per capita in this country. Only 100 pounds of flour per adult person per year. Hence the bread cost of living is an insignificant part of our living expenses, no matter whether flour is high or low. Then why not give yourself and family an opportunity of using the best flour you can get? Land's Ruth, Extra High Grade, and Minehaha, High Patent flours are the peers of any flour of similar grades. They are made from the very best wheat to be had and milled by skillful millers. They permit no one to turn out a better flour than they do. This flour is sold by

WAYS TO USE LEMONS

FIVE SUGGESTIONS THAT ARE OF REAL MERIT.

Made Into Pie, Its Tart Flavor Will Be Appreciated by Many—Lemon Butter a Delicacy Highly Considered.

Lemon Pie.—Two slices of stale bread, two-thirds of an inch thick; one cupful of boiling water, one cupful of sugar, one tablespoonful of butter, the juice and grated rind of one lemon, two eggs. Dissolve the bread in hot water; add the sugar, butter, lemon and yolks of the eggs, well beaten. Bake in a moderate oven. When done make a meringue of the whites of the eggs and pile on top. Brown in a very slow oven.

Lemon Souffle.—One cupful of sugar, one tablespoonful of butter, two tablespoonfuls of flour, the juice and grated rind of one lemon, one cupful of milk, two eggs. Cream the butter, sugar and flour together. Add the juice and rind of the lemon, then the beaten yolks and the milk. Add the well-beaten whites last. Bake in a pudding dish placed in a large pan half full of boiling water. This is a most convenient pudding to make in a hurry, as it does not need a sauce. The top is a delicious soufflé and the bottom a creamy sauce.

Lemon Butter.—Half cupful of water, half cupful of flour, half cupful of sugar, one egg, salt. Boil the water and add the flour mixed to a paste. Then add the sugar, the egg well beaten and a pinch of salt. Cook until stiff and creamy. Take off from the stove and add four tablespoonfuls of lemon juice and a teaspoonful of grated rind. Spread between slices of bread for the children's sandwiches.

Lemon Cheese Cakes.—One heaping tablespoonful of butter, two-thirds cupful of sugar, two eggs, one lemon. Cream the butter and sugar, add the yolks of the eggs, well beaten, and the juice and grated rind of the lemon and cook till thick in a lemon boiler. Bake in muffin pans, lined with pastry, and cover the tops with meringue made from the whites.

Lemon Cream Pie.—Half cupful of water, one tablespoonful of cornstarch, three tablespoonfuls of sugar, two eggs, one lemon. Line two plates with pastry and bake. When cold, put together with the following: Boil the water and add the cornstarch, mixed with a little cold water, and the lemon juice. Beat the yolks of the eggs with the sugar, add a pinch of salt and cook all together till thick. Make a meringue of the whites and spread over the top. Do not put together till just before it is to be served.

Delicious Sweet Scones.

Whole wheat flour, one pound; lard or butter, two ounces; sultanas, one ounce; carbonate of soda, three-quarters of a teaspoonful; tartaric acid, half a teaspoonful, free from lumps; buttermilk or sweet milk, one teacupful; golden syrup, one teacupful (about two ounces). Put flour into a basin and thoroughly mix in the butter, sultanas, soda and acid. Pour the syrup into the milk and add this to the dry ingredients, working it into a smooth dough. Knead as quickly as possible, roll out to half an inch in thickness, cut in rounds.

Apple Sponge.

Soften one-third of a box of gelatin in one-third of a cupful of cold water, then dissolve it in one-third of a cupful of boiling water. Add one cupful of sugar, stir over boiling water until dissolved, then add the juice of one lemon and one cupful of unsweetened apple sauce. Let stand until it begins to thicken, fold in the stiffly-beaten whites of three eggs, beat until white and frothy, turn into a ring mold and place on ice until firm. Unmold and serve with sweetened whipped cream in the center.

Delicious Meat Flavoring.

Garlic vinegar makes meat rich and tender and gives it a delicious flavor that is hard to define. It is made by placing in a quart bottle a small garlic, which is replenished as the vinegar is used. Pour into the pores of the meat as much vinegar as it will absorb, then brush over with olive oil.

Fish Hash.

Place pound of salt fish in dish on second cover of stove with cold water to cover. After it soaks a while change the water again and let it just steam, but not boil. About 6 or 7 boiled potatoes. Chop all together and fry in pork fat till brown. Moist-en a little with milk.

Lemon Pie.

Cupful of sugar, two tablespoonfuls flour, small piece of butter (melted), grated rind and juice of one lemon, yolks of two eggs, one cupful milk, whites of two eggs beaten stiff; bake in one crust for 45 minutes in a very slow oven.

For Sandwiches.

To make a good sandwich filling take one cupful of whipped cream, a pinch of salt, a little lemon juice; and one-half cupful of nut meats. Mix and spread between thin slices of bread.—Mother's Magazine.

Ginger Cookies.

Two cupfuls of molasses, one cupful sugar, one cupful shortening, one cupful water, two teaspoonfuls soda, salt, teaspoonful ginger, flour to make dough. Will make six dozen cookies.

Help The Kidneys.

Hondo Readers Are Learning The Way.

It's the little kidney ills—The lame, weak or aching back—The unnoticed urinary disorders—That may lead to dropsy and Bright's disease. When the kidneys are weak, Help them with Doan's Kidney Pills.

A remedy especially for weak kidneys. Doan's have been used in kidney troubles for 50 years.

Endorsed by 30,000 people—endorsed at home.

Proof in a Hondo citizen's statement.

Mrs. P. H. Renkin, Hondo, says: "I, and others of the family have used Doan's Kidney Pills with the best of results. My kidneys were disordered and didn't act as they should. One box of Doan's Kidney Pills entirely removed the trouble."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Renkin had. Foster-Milburn Co., Props., Buffalo, N. Y.

The Court of Last Resort.

Around the stove of the cross roads grocery is the real court of last resort, for it finally over-rules all others. Chamberlain's Cough Remedy has been brought before this court in almost every cross roads grocery in this country, has always received a favorable verdict. It is in the country where man expects to receive value for his money that this remedy is most appreciated. Obtainable everywhere.

Mrs. Prayish says that although she has made some vital mistakes in her life, she has never been sorry she discarded an editor in order to marry a lawyer.

A Specific Against Colds.

The nearest thing to a specific against colds is a sleeping porch or open bed room and a cold sponge bath every morning when you first get up. Even then you will occasionally take a cold, especially when colds are epidemic, and when you do you will find Chamberlain's Cough Remedy a great help in enabling you to get rid of it. Try it. Obtainable everywhere.

WHY PRINCE ALBERT WINS

Patented Process Is Responsible for Its International Popularity.

Smokers so much appreciate the flavor and coolness and aroma of Prince Albert pipe and cigarette tobacco that they often marvel that this one brand could be so different from all others.

The answer to this question is to be found on the reverse side of every Prince Albert package, where you will read: "Process Patented July 30th, 1907." That tells the whole story. Prince Albert is made by a patented process that cuts out the bite and parch, which makes the tobacco so mighty agreeable and satisfying to men of every taste of every civilized nation on the globe.

Smokers should realize that this patented process cost three years' continuous work and study and a fortune in money to perfect. But the result has proven to be worth all that was expended upon it, because it has set free men who believed they never could enjoy a pipe or a makin's cigarette.

Prince Albert makes it possible for every man to smoke a pipe or to roll his own cigarettes. And, no matter how tender the tongue, Prince Albert cannot bite or parch. That is, cut out by the patented process, leaving for the smoker only the joys of the fragrant tobacco.

It is a fact that since Prince Albert "arrived," just about six years ago, it has made three men smoke pipes where one smoked a pipe before!

For Diseases of the Skin.

Nearly all diseases of the skin such as eczema, tetter, salt rheum and barbers' itch, are characterized by an intense itching and smarting, which often makes life a burden and disturbs sleep and rest. Quick relief may be had by applying Chamberlain's Salve. It allays the itching and smarting almost instantly. Many cases have been cured by its use. For sale by All Dealers.

Percy Noodles says that when he told the capitalist's daughter her new stockings were too loud she said, "Oh, no; that's my shoes squeaking."

Keep Your Bowels Regular.
As everyone knows, the bowels are the sewerage system of the body, and it is of the greatest importance that they move once each day. If your bowels become constipated, take a dose of Chamberlain's Tablets just after supper and they will correct the disorder. Obtainable everywhere.

Probably the average man would be more willing to call his wife his conscience if she had a still, small voice.

Children who have worms are pale, cross, fretful, and sickly most of the time. To rid the little body of these parasites White's Cream Vermifuge is an approved remedy. When the worms have been driven out the child grows strong, healthy and robust. Price 25c per bottle. Sold by W. H. Windrow.

WOMAN ALL RUN DOWN

Made Strong and Well By Vinol

Waynesboro, Pa. - "I was all run down after a hard spell of bronchitis. It was hard for me to keep about. I had pains in my chest and took cold easily. A friend asked me to try Vinol. I did and it built me up so I am strong and well and I am able to do my housework which I had not done for three months before taking Vinol." - Mrs. Y. R. Homburg, Waynesboro, Pa.

Vinol creates an appetite, aids digestion, makes pure blood and creates strength. Your money back if it fails.

IMPOSING ON COUNTRY YOUTH

Old-Fashioned, One-Teacher School, With Studies Not Adapted to Rural Life, Is Fraud.

A little, ill-equipped one-teacher country school is much better than no school at all; but it remains today in many a rural community where it has no more business than an oxcart would have as a pleasure vehicle.

A string of little, old-fashioned one-teacher country schools, with a course of studies not at all related to country life, in a rural district where many farmers own automobiles is a scandalous fraud on country youth.

The consolidated country school, graded, well-housed, well-equipped, with adequately paid teachers and a course of study knit up with country life, is the farmer's best asset - Saturday Evening Post.

WAYS OF RUNNING ELEVATOR

Four Plans Described, None of Which Is Road to Success Without Work and Capital.

There are four ways of running an elevator, all of them successful and all of them permanent.

First, an elevator may be run by one man.

Second, an elevator may be run by a partnership.

Third, an elevator may be run by co-operation which is another form of partnership with a large number of partners.

Fourth, an elevator may be run by a partnership in another form, a corporation.

All four forms have equal rights under the law. None of them should have special privilege. None of them is a royal road to success without work and capital.

Salmon Grab.

One can salmon, one-half cupful milk, two eggs, one-half cupful cracker crumbs, salt and pepper. Beat yolks of eggs and then add the other ingredients, adding the beaten whites last. Bake one-half hour. Slice cold and serve with or without mayonnaise dressing.

To Drive Out Malaria

Take the Old Standard GROVE'S TASTELESS chill TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

Made My Life Worth Living

"I feel it my duty to tell others what Chamberlain's Tablets have done for me," writes Mrs. L. Dunlap, of Oak Grove, Mich. "I have suffered with pains in my back and under my shoulder blade for a number of years, also with a poor appetite and constipation. I tried all of the remedies that I heard of, and a number of doctors, but got no relief. Finally a friend told me to try Chamberlain's Stomach and Liver Tablets. I got a bottle of them and they soon helped my stomach; by their gentle action my bowels became more regular. Today I feel like praising them to all who suffer as I did, for they have cured me and made my life worth living."

V. L. Davis, who has been doing service in the county jail for theft of money in Devine, last French leave Wednesday evening. He neither left a lock of his hair or a letter of thanks to the jailer for feeding and giving him shelter for the past several months.

Davis was a trusty about the jail and Wednesday evening was engaged in watering the shrubbery that has been recently set out in the yard. Sometime late in the evening, supposedly about six o'clock, he slipped the shackles on his ankle and struck out for new and greener pastures. He had served out about half of his time.

Describes His Itinerary.
During the past week the writer, ac-

companied by Mrs. Garren, as repre-
sentatives of the Extension Service of
the A. & M. College, had the pleasure
of helping to conduct an agricultural
campaign in the southern part of Me-

dicina county. Mr. Fletcher Davis, re-
presenting the State Department of
Agriculture, was in charge of the
party. Sub rosa, Mr. Davis knows
how to work a party for all he is
worth. But a more pleasant, agreeable

gentleman than Mr. Davis was never
put in charge of any party. For the
Friday and Saturday meeting the party
was joined by Mr. J. W. Neill, direc-

tor of farmers' institutes in the State
Department of Agriculture.
Monday morning short addresses
were made before the students in the
upper grades of the Hondo High school.

In the afternoon Mr. Davis carried his
party out to Yancey where again short
addresses were made to students in
the upper grades of the Yancey High
school and a Junior Farmers' Institute

was organized. Special courtesies were
shown the party by Prof. T. C. Hick-
man, principal of the high school, Prof.
J. M. Turner of the agricultural de-

partment of the high school. This
high school has what every high school
in South Texas ought to have, a well
planned school garden. A good school
garden wouldn't hurt even a primary
school in the country. At night an au-

dience of more than a hundred of in-
telligent, interested men and women
listened to addresses on practical ques-
tions of the farm and the farm home.
At the close of the meeting a Senior
Farmers' Institute was organized by
Mr. Davis.

The party spent the night at the ele-
gant home of Mr. H. G. Wilson. All
were delighted with the entertainment
in this hospitable home and of this
cultured family.

Tuesday the party were at Zig Zag,
addressing the school in afternoon, the
general public in the school house at
night, being entertained in the hospi-
table home of Mr. J. R. Dubose. There
another farmers' institute was organ-

ized.
Next day Devine was visited. Brief
addresses again before the upper
grades of the high school in forenoon,
out into the country to address the pu-

pils of the Black Creek school in the
afternoon. A meeting at the high
school auditorium at night for the men
and women of the community. Much
courteous treatment was shown Mr.
Davis and his party by the principal of
the high school and his faculty. The
evening audience was large and appre-

ciative and the many business and pro-
fessional men of the town present
seemed interested in the strictly agri-
cultural and home economic subjects
discussed.

The meeting next day at Natalia
was not so large or enthusiastic as the
previous meetings. But some interest
was doubtless aroused in improved
agriculture.

Friday evening at Biry a large au-
dience greeted the party in the public
hall. Mr. Neill here joined the party
and made an address on insect pests.
His mounts of specimens were unusu-
ally fine. The schools at Shook and
Redus were also visited Friday. Al-

though these schools were composed
only of the primary grades the chil-
dren took special interest in the ad-

resses.
The series of meeting closed Satur-
day with an afternoon meeting in the
opera house at Hondo. A good sized
audience from both the town and coun-

try greeted the speakers. Much inter-
est was manifested in the subjects dis-
cussed. Mr. Neill's display of insects
attracted much attention.

The writer must confess he doubtless
never saw finer lands than he saw in
his trip through Medina county. The
lands around Hondo could hardly be
excelled for agricultural uses. It is
smooth, level and fertile. The lands
around Zig Zag are ideal peanut lands.

The farmers of that community ought
to find peanut growing and hog raising
more profitable than growing boll
weevil cotton.

At Natalia are the very fine lands
of the Medina Dam Project company.
This will in all probability prove the
forerunner of many other irrigation
projects in this section in the no far
distant future. All this whole section
needs to render it one of the greatest
agricultural regions in the whole coun-

try is some irrigation to supplement
its irregular rain fall.
The lands around Biry, and between
Biry and Hondo are equally as fine as
the rest. But if it is to remain fertile
the farmers must cease burning their
cotton stalks.

G. M. GARREN.

Colds Quickly Relieved.
Many people cough and cough-
from the beginning of Fall right
through to Spring. Others get cold
after cold. Take Dr. King's New
Discovery and you will get almost im-

mediate relief. It checks your cold,
stops the hacking, rasping, tissue-
tearing cough, heals the inflammation
soothes the raw tubes. Easy to take,
Antiseptic and Healing. Get a 50c
bottle of Dr. King's New Discovery
to-day. "It is certainly a great
medicine and I keep a bottle of it con-

tinually on hand" writes W. C. Jesse-
man, Franconia, N. H. Money back
if not satisfied.

Our idea of the credit business is
that if we were a groceryman we'd sell
for cash or give it away.

Take Po-Do-Lax in Spring.
In winter our blood gets thick, our
pores close, we feel tired and dull
when hot days come. What we need
is a spring liver tonic, something to
rid our system of winter's accumulat-

ed waste. Po-Do-Lax will do it. It
stimulates the bile, empties the bow-
els. The organs become more active
and in a little while you feel like new.
Don't neglect cleaning out your sys-

tem. Take Po-Do-Lax and you will
feel fine. 50c at your Druggist.

Of course, girls, the marshmallow
powders; but it doesn't paint.

Mr. J. W. Neill, director of Farm-
ers' Institutes for the State Depart-
ment of Agriculture, delivered an ad-
dress on insect life and illustrated it
with some fifteen hundred mounted
specimens. He said that it is impera-
tive that farmers organize to protect
themselves against insect pests and
to secure better marketing facilities.
He made a strong plea for the birds
and said that with the wanton destruc-
tion of these natural weed and insect
destroyers man would have to rely on
his own efforts to cope with these
pests. A study of the life cycle and
food habits of insects is essential to
success in this effort. Some insects
are man's friends and efforts to de-
stroy insects should take note of this
fact and be so directed as to destroy
the injurious and spare the helpful.
Insects can be divided into two groups
or classes with reference to their food
habits, namely: mandibulate or chew-

ing insects, and haustellate or sucking
insects. The former can often be de-
stroyed by a food poison placed on the
plants where it feeds, while a contact
spray of soap, oil or nicotine or suff-
ocating gases are required to destroy
the latter. Early fall plowing was
urged for the purpose of breaking up
the nesting places of ground larvae
and the burying of hibernating insects.
The myriads of these pests, the varia-
tions of their habits and the heavy
losses they are inflicting upon farmers
calls for organization for study of
these pests and co-operation and con-
certed endeavor in fighting them.

Owing to the lateness of the hour
and the small number of farmers re-
maining until the close of the speak-
ing, the organization of a County
Farmers' Institute was deferred until
March 31st when Mr. Neill will return
for the County School meet at which
time he wishes to meet every farmer
who is interested in effecting such an
organization.

This meeting was the closing feature
of a more than two weeks campaign
over the county by Fletcher Davis,
Field Agent of the State Department
of Agriculture, during which time he
and others, both for the Department
and allied forces, attended and ad-
dressed thirty-six school and commu-
nity meetings, organized nine Farmers'
Institutes and with Mrs. J. L. Lan-
drum organized several Girls' Home
Economics Clubs.

Dangers of Draft.
Drafts feel best when we are hot
and perspiring, just when they are
most dangerous and the result is
Neuralgia, Stiff Neck, Sore Muscles
or sometimes an attack of Rheuma-
tism. In such cases apply Sloan's
Liniment. It stimulates circulation
to the sore and painful part. The
blood flows freely and in a short time
the stiffness and pain leaves. Those
suffering from Neuralgia or Neuralgic
Headache will find one or two applica-
tions of Sloan's Liniment will give
grateful relief. The agonizing pain
gives way to a tingling sensation of
comfort and warmth and quiet rest
and sleep is possible. Good for
Neuritis too. Price 25c at your Drug-
gist.

Let us so live that when we are
nominated to the supreme court bench
we shall not have people saying of us
that once upon a time we milked a
widow woman's cow while the owner
was at church.

HUSBAND RESCUED
DESPAIRING WIFE

**After Four Years of Discouraging
Conditions, Mrs. Bullock Gave
Up in Despair. Husband
Came to Rescue.**

Calron, Ky.—In an interesting letter
from this place, Mrs. Bettie Bullock
writes as follows: "I suffered for four
years, with womanly troubles, and during
this time, I could only sit up for a little
while, and could not walk anywhere at
all. At times, I would have severe pains
in my left side.

The doctor was called in, and his treat-
ment relieved me for a while, but I was
soon confined to my bed again. After
that, nothing seemed to do me any good.

I had gotten so weak I could not stand,
and I gave up in despair.

At last, my husband got me a bottle of
Cardui, the woman's tonic, and I com-
menced taking it. From the very first
dose, I could tell it was helping me. I
can now walk two miles without tire-
tiring me, and am doing all my work."

If you are all run down from womanly
troubles, don't give up in despair. Try
Cardui, the woman's tonic. It has helped
more than a million women, in its 50
years of continuous success, and should
surely help you, too. Your druggist has
sold Cardui for years. He knows what
it will do. Ask him. He will recom-
mend it. Begin taking Cardui today.

CALOMEL IS MERCURY! IT SICKENS!
ACTS ON LIVER LIKE DYNAMITE

**"Dodson's Liver Tone" Starts Your Liver
Better Than Calomel and Doesn't
Salivate or Make You Sick.**

Listen to me! Take no more sick-
ening, salivating calomel when bilious or
constipated. Don't lose a day's work!
Calomel is mercury or quicksilver
which causes necrosis of the bones.
Calomel, when it comes into contact
with your bile crashes into it, breaking
it up. This is when you feel that awful
nausea and cramping. If you are slug-
gish and "all knocked out," if your
liver is torpid and bowels constipated
or you have headache, dizziness, coated
tongue, if breath is bad or stomach sour
just take a spoonful of harmless Dod-
son's Liver Tone on my guarantee.

Here's my guarantee—Go to any drug
store and get a 50 cent bottle of Dod-
son's Liver Tone. Take a spoonful to-
night and if it doesn't straighten you
right up and make you feel fine and
vigorous by morning I want you to go
back to the store and get your money.
Dodson's Liver Tone is destroying the
sle of calomel because it is real liver
medicine; entirely vegetable, therefore it
can not salivate or make you sick.

I guarantee that one spoonful of Dod-
son's Liver Tone will put your sluggish
liver to work and clean your bowels of
that sour bile and constipated waste
which is clogging your system and mak-
ing you feel miserable. I guarantee that
a bottle of Dodson's Liver Tone will
keep your entire family feeling fine for
months. Give it to your children. It is
harmless; doesn't gripe and they like its
pleasant taste.

Notice Voters Hondo Independent School District.

Notice is hereby given that an election will be held in the district court room in Hondo, Saturday, April 1st, 1916, between the hours of 8 a. m. and 6 p. m., for the purpose of electing three trustees for the Hondo Independent School District to succeed Dr. R. P. Thomas, Dr. W. H. Smith and Fletcher Davis, whose terms expire.

Isaac Wilson, J. G. Newton and V. F. King are hereby appointed officers of election to hold the same.

By order of the Board of Trustees.
FLETCHER DAVIS,
President.

I. WILSON, Secretary. 31-4t

To The Public.

My duties to the State as an employee of the State Department of Agriculture render it impossible for me to give the attention to the duties of Trustee of the Hondo Independent School District which the responsibility of the position demands. Therefore, in justice to the school and to myself, I must ask that my friends select some one else as my successor at the election April 1st. Respectfully,
FLETCHER DAVIS.

\$500.00 Reward.

I will pay the above reward for the arrest and conviction of the party or parties who are stealing my steers. 25-6mo.
D. W. SHORT.

Wake up! Mr. Beekeeper.

There will be a special meeting at two o'clock in the afternoon Monday, March 13th, at the court house at Hondo in honor of Mr. and Mrs. D. J. Hamilton, Ill. Mr. Padlock, state entomologist, Prof. Louis Scholl, one of the most prominent beekeepers of the state, and Mr. LeSturgeon of San Antonio.

These are all bee specialists and are able speakers. You are urgently requested to attend this meeting as there will be something to be learned as well as showing your respects for the presence of these prominent speakers.

H. J. NESTER,
Secretary Medina County Beekeepers' Association.

Worth Careful Thought

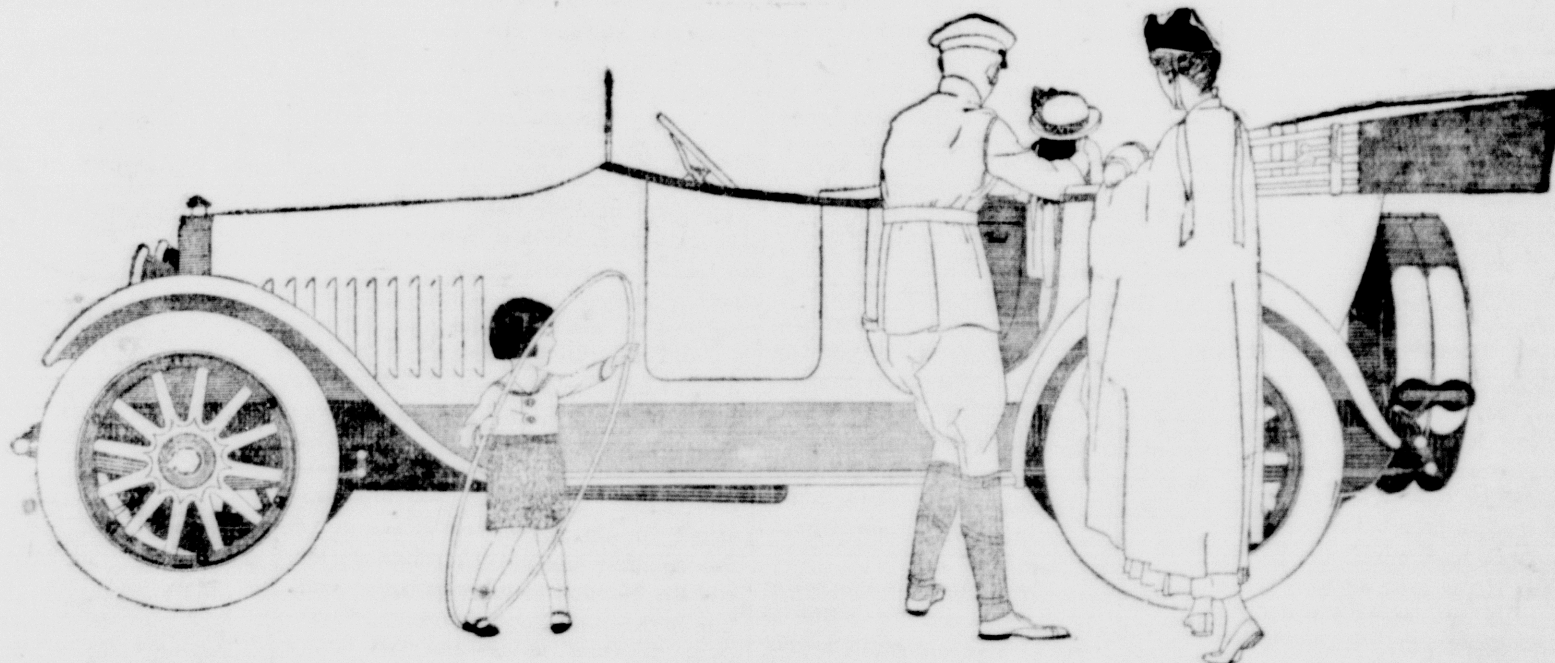

Do you read the label to know whether your baking powder is made from cream of tartar or, on the other hand, from alum or phosphate?

Royal Baking Powder is made from cream of tartar, derived from grapes, and adds to the food only wholesome qualities.

Other baking powders contain alum or phosphate, both of mineral origin, and used as substitutes for cream of tartar because of their cheapness.

Never sacrifice quality and healthfulness for low price.

3400 r. p. m. Subdued, Controlled and Converted Into Thrifty Energy

There is more meaning wrapped up in the term '3400 r. p. m. Chalmers' than in any phrase in the history of motor building.

It means, first of all, performance

It means might fused with mileage, and brute force tamed into silken flexibility.

It means supreme engine speed attained with absolute safety, and big horse-power that you and I dare drive.

It means that every drop of gasoline that is inhaled into the aluminum lungs of this wonderful beast's engine is compelled to deliver every available gram of its dynamic energy.

It means the subordination of superfluous might into the golden boon of imperishable pick-up, obedience, and a smooth-running, uninterrupted, throbless stream of might.

It means 18 miles of glorious going from every gallon of gas, and a saving of \$150 to \$200 per year in gasoline that an engine of useless might would require.

It means 60 miles an hour, if you want speed, without whisper of the roar of racing motors.

It means performance plus, and cost of upkeep minus.

It means incomparable ability "on high" beyond any car in its price-class—anything from two miles an hour to twenty-five in less than ten seconds.

It means everything that the name Chalmers stands for at a lower price than any other Chalmers car has ever borne.

It means a competition-cleaving car, built under new conditions of quantity production under the Chalmers' roof, at a time when the whole South is able to buy cars on a scale never equalled before.

It means that I am prepared to make prompt deliveries in the order of sales.

It means that this is the car you'll feel you must own, once you have seen and felt it perform.

No man is sage enough to foretell the condition of the market for materials a few weeks hence. It will be the part of wisdom and may save many a regret if you record your order now.
